RE : **Bill 20 CD1**

Position: **SUPPORT**

I am a Waialua business owner and also an owner of agricultural property in the Waialua community. I am in **SUPPORT of Bill 20 as is** and only for residential zoned areas of our community and specifically not for country or agricultural zoned areas.

There are many areas of our island such as Kunia and Waialua where we have developers buying and subdividing agricultural property with no intent on ever conducting viable agricultural activity, instead marketing agricultural properties for homes with views and swimming pools.

This is the third reading of Bill 20, the greatest need is in our residential areas not agricultural where we are currently dealing with many abuses and violations of land use that need to be addressed by the City and the community.

Thank you.

Susan Smith
